We have signed this Edible Edinburgh Charter to show our commitment to:

- Serve only good food to our students, employees, patients or customers
- Procure healthy and sustainable food that supports local economic prosperity
- Use ingredients grown and sourced using methods that protect our wildlife and our planet
- Support our staff, customers and community to grow food
- Support commercial opportunities for local food businesses and enterprises

Position/Role

support Edible Edinburgh’s vision for our city:

FOOD
Food is healthy and fairly traded. Fresh produce is locally grown.

PEOPLE
People can afford to eat well and food poverty is a thing of the past.

ECONOMY
There is a thriving food economy with many more small and successful food businesses and great training to support them.

CULTURE
Culture is transformed and good food is at the centre of Edinburgh life.

ENVIRONMENT
The environment benefits from better ways of growing, shopping and eating food that are better for wildlife and better for our planet.
